

This risk assessment covers the bringing of animals to offsite locations for the purpose of entertainment and education by Jurassic Wildlife Adventures.

Risk Identified	Risk Level	Management of Risk
Bites/scratches/aggressive behaviour of animals	Low	<ul style="list-style-type: none"> • Presenter will assess the animals mood, feeding schedule and behaviour before approving them for a presentation • Clients/general public will have no physical contact with any animals without the permission of the presenter and only under controlled circumstances • Warnings and behaviour expectations will be explained prior to the presentation • Set up of the room will be done so to avoid overcrowding and reduce animal stress
Animal waste	High	<ul style="list-style-type: none"> • Cleaning products will be carried by the presenter and animals will be presented in or over pouches/containers • Animals will be held at a reasonable distance from clients/public to minimise risk of their contact with animal waste • F10 will be carried and offered to clients/public to clean hands afterwards - hand washing will also be recommended after presentation
Escapes	Low	<ul style="list-style-type: none"> • Presenter will begin the established escaped animal protocol • When not being presented, all animals travel and remain in escape proof containers • Expectation of clients is that they will listen to all instructions from the presenter
Unpredictable animal behaviour	Low	<ul style="list-style-type: none"> • No food is to be brought into the presentation space, unless brought by the presenter • Noise and movement is to be kept to a reasonable level to avoid scaring the

		animals <ul style="list-style-type: none"> • If an animal becomes stressed, they will be removed from the area
Allergies	Low	<ul style="list-style-type: none"> • Presenter will check prior to commencing the presentation if there are any allergies • Clients to wash hands after the presentation and F10 between any contact with animals
Virus/Germ transmission	Low	<ul style="list-style-type: none"> • Presenter will assess the animals mood, feeding schedule and behaviour before approving them for a presentation • Regular vet visits are conducted to ensure the animals are in good health • Clients to wash hands after the presentation and F10 between any contact with animals
Appropriate age activity	Low	<ul style="list-style-type: none"> • The presenter will assess the age group and determine the appropriate level of animal interaction according to that • Handling of certain animals will be restricted where it is deemed inappropriate due to age/behaviour
Animal transportation	Low	<ul style="list-style-type: none"> • Property owner/organiser to provide adequately close parking to reduce distance between the vehicle and presentation area • Presenter will ensure safe unloading and loading of animals • Animals to be transported in secure containers

Method Statement

We will endeavour to always

1. Travel safely to and from offsite locations taking breaks when necessary
2. Be punctual
3. Assess presentation area
4. Ensure animals are secured when not being presented
5. Any animals showing signs of tiredness or aggressive behaviour will be removed from the area as soon as possible
6. Only bring animals in good health and a good mood
7. Treat clients and general public with respect
8. Leave the area free of waste from animals or mess
